

To our valued members:

Starting next Tuesday, December 13th we will be switching software programs for the club which is used for checking in, sales, billing, etc.

Please be patient with us as we make this transition, while training our staff and continuing to train ourselves.

We will do our best to make this a smooth transition, this will eventually give you more online access and ability to manage your membership options more for yourselves.

Thank you so much for your support and continued business.

Warm regards, Trish and Danielle
